## ZONING

**Supplement Accepted**

**Comment Date:** 09/12/2018

Submit revised elevations drawn to scale. Per Sec. 28.134(1)(b), For principal buildings and structures, height is the average of the height of all building facades. For each facade, height is measured from the midpoint of the existing grade to the highest point on the roof of the building or structure. No individual facade shall be more than fifteen percent (15%) higher than the maximum height of the zoning district (40.25')
