Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plan. Work with Zoning staff to establish a final site compliance date. **As per applicant that date is January 16, 2019**

Note

A zoning certificate of occupancy is required pursuant to section 28.195 and will be rolled into this approval. The building permit maybe issued after this CO is approved. The project is not considered a extension or expansion of the pre-existing use and therefore the off-street parking requirements will not be reviewed at this time.
